Revisions to Comal County Subdivision Rules and Regulations

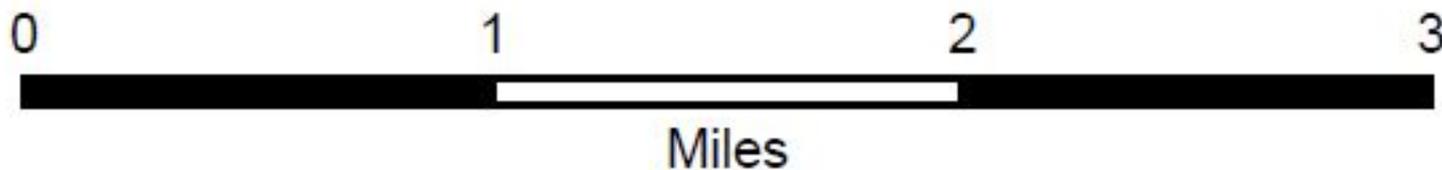

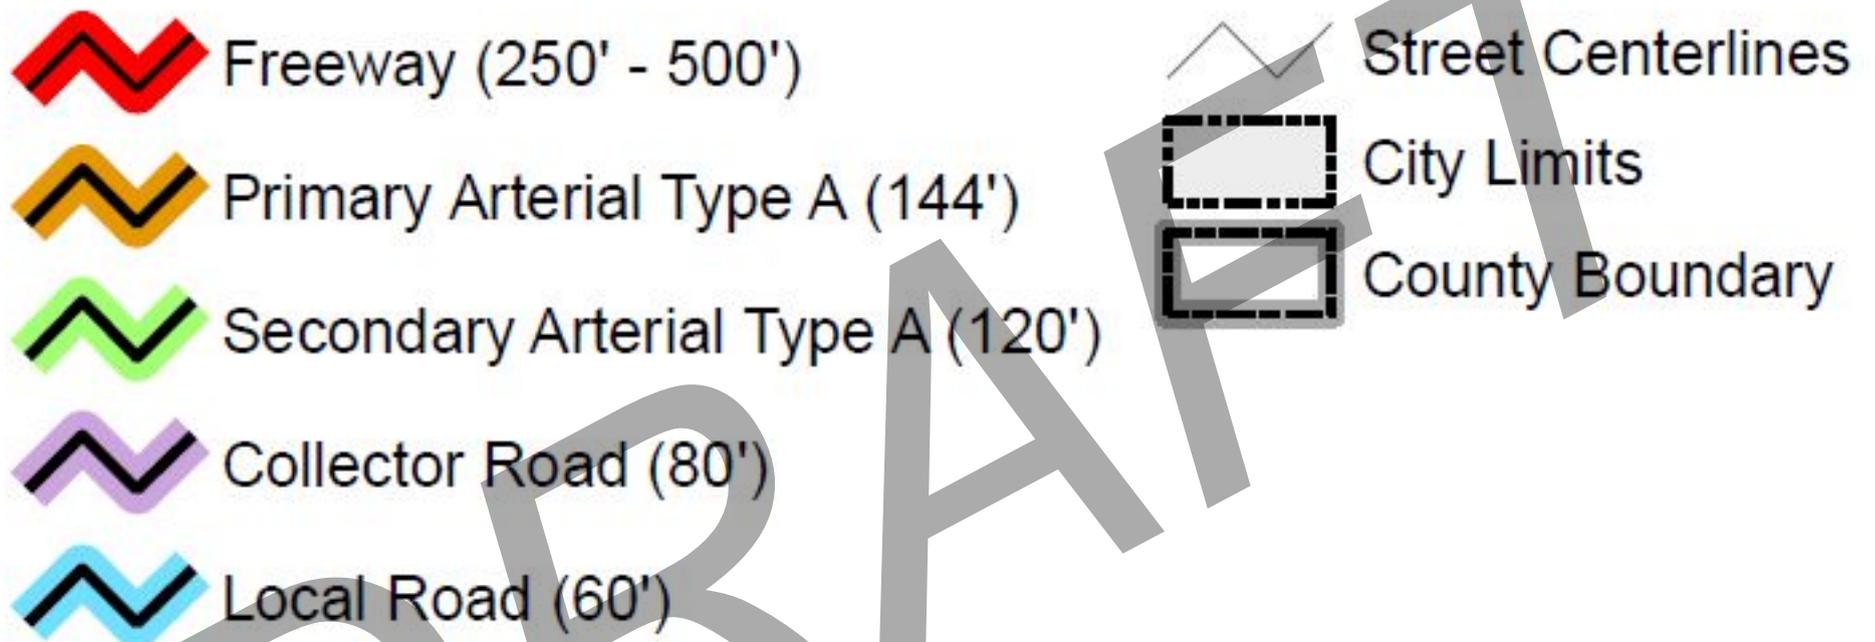

Approved by Order of the Comal County Commissioners Court on June 3, 2004.
This Order takes effect June 3, 2004.

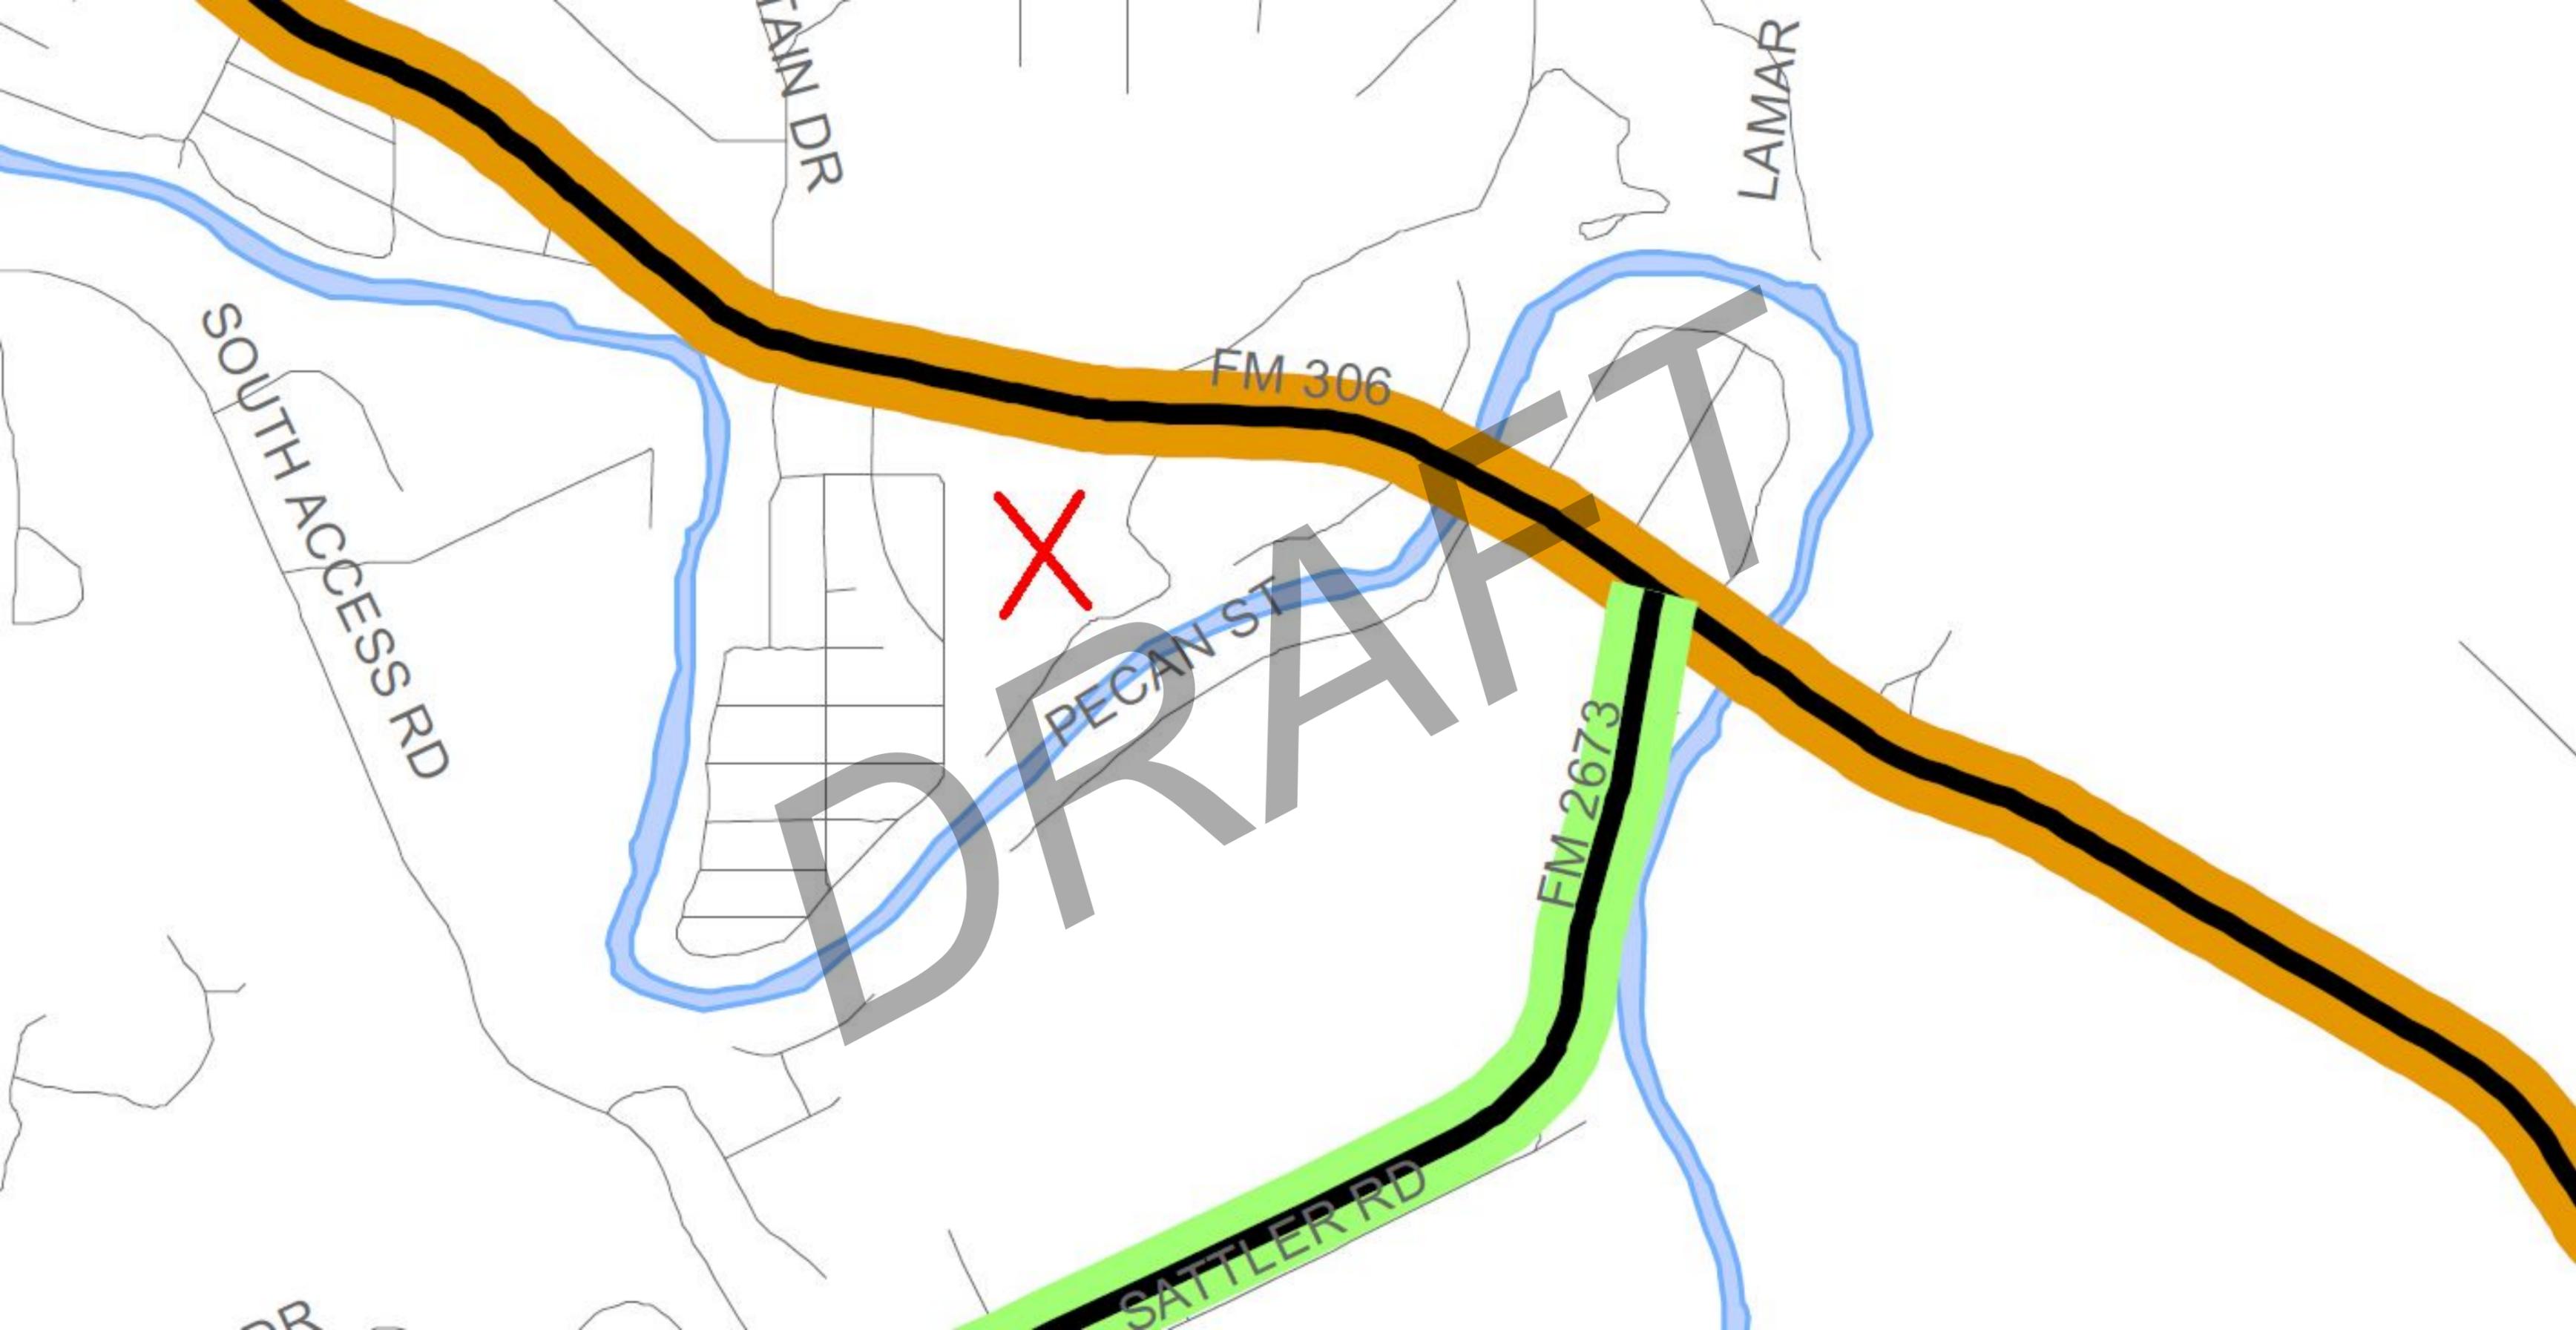

- ~~1. Delete Section A, Regulations, Subsection VI. Road Construction. Minimum Requirements, Paragraph 4. Streets or Roads Which are Existing County Roads:~~

Replace with:

4. Where the subdivision affects a state or county road, the right-of-way requirement shall be in compliance with the Comal County Major Thoroughfare Plan established by Order of the Comal County Commissioners Court. Any improvements proposed by the developer for existing county roads shall be approved by the Commissioners Court in writing prior to the construction of such improvements.

GRANTING/DENIAL OF VARIANCE REQUEST

On this _____ day of _____, _____, in a duly convened meeting of Commissioners Court of Comal County, the request for variance(s) for _____ Subdivision was officially granted/denied because of the following reasons:

County Judge

Hill Country Resorts, LLC is seeking the following variances from the requirements of Comal County Subdivision Rules and Regulations Section A, Regulations, Subsection VI, Road Construction, Minimum Requirements, Paragraph 4 as amended on June 3, 2004.

The preferred variance is as follows:

- a) Hill Country Resorts, LLC requests a complete variance from Comal County's right of way dedication requirement.

In the alternative, and as a less desired variance:

- b) Hill Country Resorts, LLC requests a variance enabling it to leave the existing improvements in the dedicated right of way until such time as TXDOT determines it is necessary to have them removed, such as in order to accommodate the widening of FM306.

The above variance requests are supported by the following:

- 1) There would be no change to the current land use, which could otherwise increase traffic.
- 2) The dedication would result in significant financial harm to Hill Country Resorts, LLC as it would require removal or relocation of the following:
 - Stone wall
 - 25 x 25 building / storage facility
 - Entry signage
 - Numerous utilities.

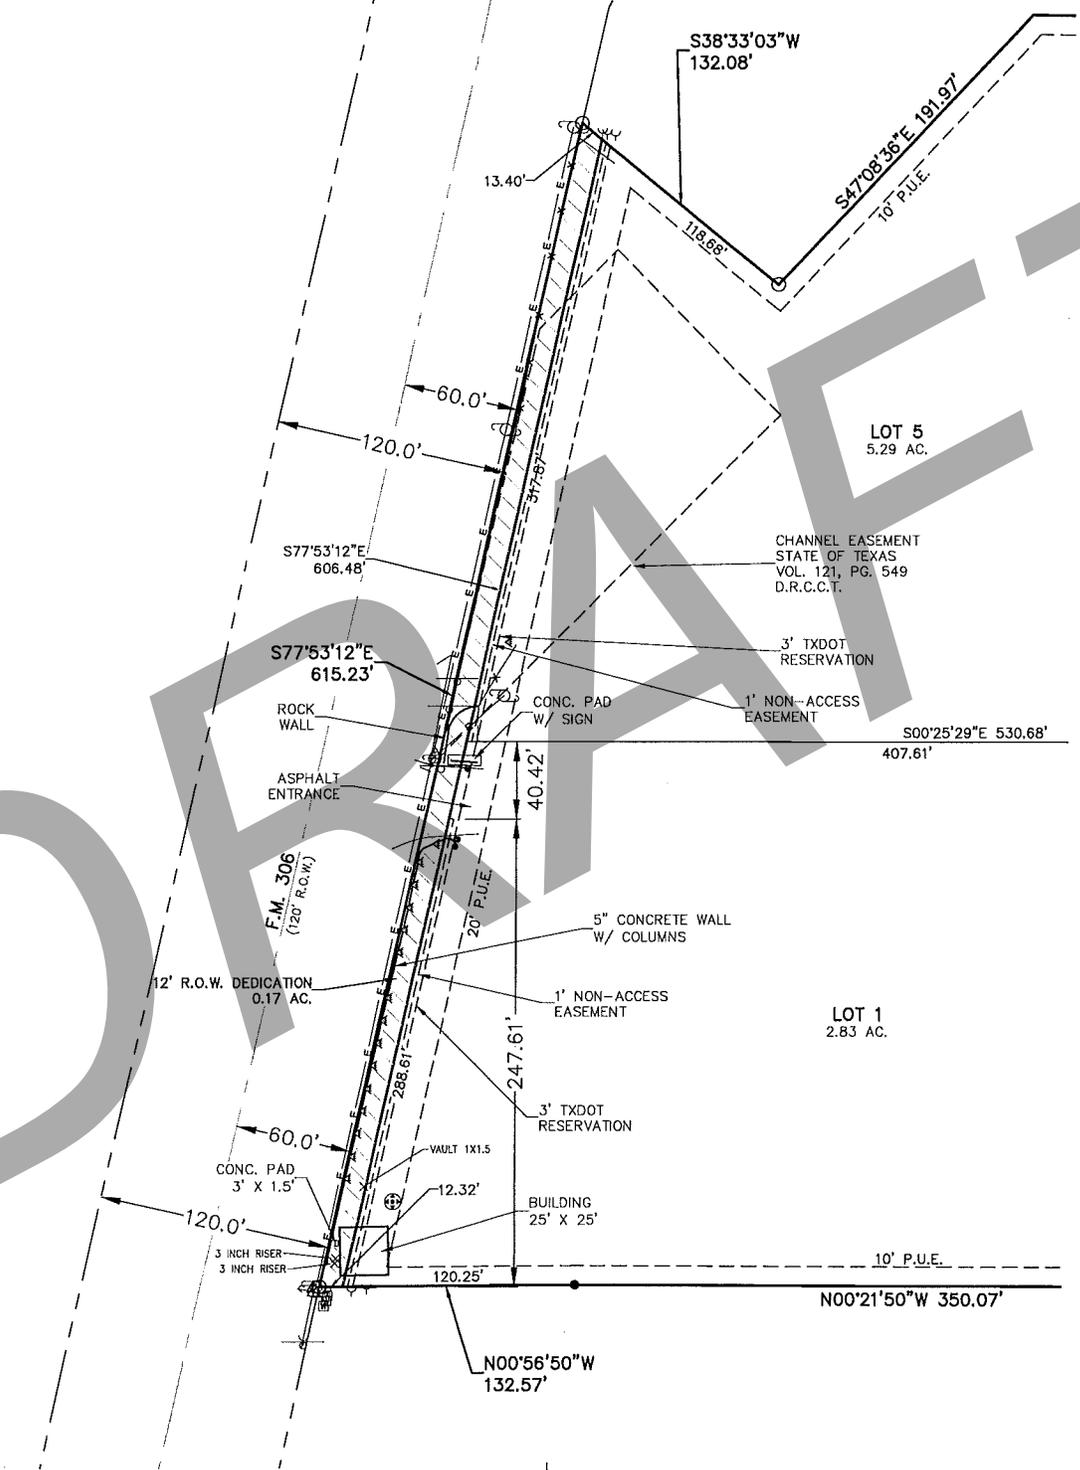

The estimated cost to replace/relocate the foregoing improvements is over \$200,000. See attached aerial depiction and survey showing the impact to existing improvements. Unlike the vast majority of new development subdivisions, the subdivision in question involves already developed property with numerous improvements. Indeed, this plat is being sought for the sole purpose of bringing the property's sewer system within the County's jurisdiction. As such, this subdivision is very unique and requires a variance to address the uniqueness of the situation.

Respectfully submitted,

Hill Country Resorts, LLC
